If the interest is there, I am gladly uploading the rest. After that only came trading and TA talks about where btc might go.

Now, after reading everything from before VJ went to Bali and was so innocent of any trades, please take a look at his claims and blames against me.

I am not here to play games, yet when I get threats and wild accusations and nobody trusts anyone, I make sure trust is re-established.

Here his version of miserably trying to fool anyone, even after such a matter. Trying to fool and even steal the business from me. Even though I was ALWAYS stating that I am not blaming anyone by name or specifically, because we were a team and everyone is as much responsible as the other.
